Who We Are

Mill Steel is one of the nation's largest flat-rolled low carbon steel distributors in North America.

Mill Steel operates five regional processing and distribution facilities across the US and is among the top 15 privately held companies in Michigan. With a revenue of \$1.45 billion, it earned the number 17 spot on the Metal Center News annual "Top 50 Service Centers" publication. Mill Steel prides itself on being a unified team working towards one clear vision of being the industry leader in customer experience. With the forward-thinking leadership team and dedication of all its associates, Mill Steel is positioned to flourish for years to come.

Mill Steel is a ten-time Rural Builder Magazine Gold Key of Excellence Award winner, as voted by our valued customers.

Prepainted and Expert Processing from One Source

Our expert staff has decades of experience in building products and top-of-the-line coating systems. With five in-house slitters and a cut-to-length line, we can handle any prepainted or bare steel up to 72 inches wide. In addition, dedicated metallurgists are on hand to ensure you get the right product, every time.

Value Added Services

Strategically located production lines to support short lead-time deliveries.

In-house metallurgists can be deployed at a moment's notice to save you time and money

Extensive inventory for just-in-time distribution to minimize your carrying costs and improve cash flow

No-Hassle Claims Policy, complete with on-site inspection for quick resolutions
